Stampin'Up! Cutter w/scoring blade
See video for details

Directions

1. Score card base in landscape position (aka longer side) in half at 4¼. Fold and burnish card.
2. Place card face down with card front on the bottom. Use a pencil to mark the center bottom at 2 ¾.
3. Use a pencil to mark center point on each side at 2-1/8.
4. Use pencil to mark center bottom point of 4 x 5 ¼ piece of DSP at 2-5/8. Set aside
5. Insert card into cutter and score from the bottom center mark to side center mark. Rotate card and score from bottom center mark line to center fold line of card side. Repeat for other side. See video for details. .
6. Open card so the inside is showing and fold large triangle to the inside of card and the small triangle back opposite way. See video for details.
7. Working on the inside of card, glue large triangle to the inside. Put a small amount of glue on the small triangle and glue to the large triangle, making sure you do not put clue on the entire small triangle. See video for details.
8. Use paper cutter to cut DSP. Line up the center bottom mark with the top corner and cut. Line up center bottom mark and again cut from mark to corner. This will give you three triangle pieces of DSP. See video for details.
9. Glue large triangle to card front and glue two smaller triangles to the 4 x 5 ¼ piece of Basis White CS.
10. Attach Basic White panel to the inside of card. See video for details.
