Directions

1. Cut 6 banners from Stylish Shapes dies from Designer Paper of choice. I used the Painted Collage DSP paper pack.
 2. Weave paper ribbon according to template.
 3. You can use small amounts of snail adhesive to keep in place while weaving.
 4. TIP: Once I have my ribbon pattern, I like to add just a bit of scotch tape to the back, keeping it all in place. This makes it easier to glue to your card front.
 5. Repeat often with different designer series paper patterns.
- And as always.....Happy Stamping!
